# Fleet Management

Fleet Management from Automotive Leasing can reduce your administrative burden, leaving you able to concentrate on your core activities.

Fleet Management is a service which runs alongside your chosen finance method, which can help you significantly reduce the time and cost implications associated with managing and administering a fleet.

Our Fleet Management division Total Contract Management (TCM) can take care of every aspect of fleet management, eliminating the most time consuming elements of fleet operation while giving your drivers direct access to our full range of services.

We can design and implement a cost-effective solution that's right for your organisation; and by providing your drivers with access to our full range of services we can help them make informed decisions about vehicle choice.

Our knowledge and experience allow us to create strategic and operational benefits, by managing supplier relationships and controlling costs, so if you are looking to implement a strategy that makes it easier to increase productivity, efficiency and performance, contact us.

## We've got **the complete solution** to your fleet management needs
